

Checklist for Application of Product Enlistment under Net Metering Program
Submission Location: National Solar Help Desk (NSHD), IEB Bhaban, Level-9, Romna, Dhaka-1000
Submission Time: 10:00 AM – 4:00 PM (On official working days)
Applicable Guideline: Net Metering Guideline-2025

Application ID : Application Date : Company Name:

Guidance for Submission

The applicant must bring the following at the time of submission:

- ☐ **One complete hard copy** of the application and all required annex documents.
- ☐ Soft copies of all required documents shall be saved in a **single ZIP file**, and a download link to the file shall be shared with NSHD, following the prescribed file-naming convention.
- ☐ **Verification:** The applicant must ensure that **soft and hard copies are identical** in content, order, and version. Any discrepancy may result in rejection or processing delays.

Note: *If fake or fraudulent documents are submitted and proven during verification, the applicant will be blacklisted.*

A. List of Mandatory Documents

#	Document	Hard copy	Soft copy
1	Application	Hard copy application with a receive copy	—
2	Index of All Attachments (Annex 1)	Hard copy, complete index covering all submitted documents	Full document
3	Proof of Status as Importer/Manufacturer (Annex 2)	Intro/title page + relevant page(s) mentioning product and importer/manufacturer	Full document
4	Full Compliance Test Report (Annex 3)	Title pages ensuring identity + all compliance-parameter test result pages for the applied product	Full report
5	Accreditation Certificate & Scope of Test Laboratory (Annex 4) ¹	Certificate (full) + Scope: title page + only relevant compliance- standard/parameter pages for the applied product	Full document
6	Full Compliance Certificate (Annex 5)	Full certificate	Full certificate
7	Accreditation Certificate & Scope of Certification Body (Annex 6) ¹	Certificate (full) + Scope: title page + only relevant compliance-standard/product type pages for the applied product	Full document
8	Local Laboratory Compliance Test Report (Annex 7)	Required	—
9	Proof of Model and it's datasheet Availability on Manufacturer's Website (Annex 8)	Relevant pages only	Full set

B. Soft Copy File Naming Convention

- ☐ All soft copy files must in **pdf file** and must strictly follow the naming format below:

AnnexSerial_ApplicationNumber_DocumentTitle

Examples:

- 1.1._481318_ Check List
- 1.2._481318_ Index of All Attachments
- 2._481318_Proof of Status as Importer **Or**
2._481318_Proof of Status as Manufacturer
- 3._481318_Full Compliance Test Report
- 4._481318_Accreditation Certificate-Scope of Laboratory **Or**
4._481318_Accreditation proof of Laboratory on SREDA Website

¹ If the laboratory or certification body is listed as verified on the SREDA website, and its validity covers the testing period and the required standards, there is no need to submit the accreditation certificate and scope. Instead, the applicant must submit a printout of the SREDA list page, with the laboratory or certification body name and applicable standards clearly highlighted, attached as an Annex.

- 5._481318_Full Compliance Certificate
- 5._481318_Accreditation Certificate-Scope of Certification Body **Or**
5._481318_Accreditation proof of Certification Body on SREDA Website
- 7.1._481318_Guidance to Locate Model-datasheet Availability on Manufacturer Website
- 7.2._481318_Print to PDF of Product Page
- 7.3._481318_Datasheet of the Applied Product

☐ Create a ZIP file containing the above files. Rename the ZIP file using the following format:

YYYY-MM-DD_XXXXXX

Where, YYYY-MM-DD is the application submission date and XXXXXX is the six-digit application number. The download link of the uploaded ZIP file shall be shared with NSHD at the time of application submission.

1. Application

☐ Application form downloaded from SREDA website:

<https://solar.sreda.gov.bd/doc/Application%20Form.docm>

☐ Application is for **single product only**

☐ Application submitted **only by manufacturer or importer**

☐ Application issued by **Executive Head of the Company**

☐ **Focal Point** clearly assigned from applicant organization

☐ Printed on **official company letterhead**

☐ **Unique application number** (auto-generated by the DOC file) printed at the **bottom of the application**

☐ Signed, sealed, and ready for physical submission

☐ Receive copy of the application is brought

2. Index of Enclosures (Annex 1)

☐ Index table included immediately after the application

☐ Index table contains the following columns:

- Serial No.
- Attachment Name
- Issuer Name
- Identification Number(s)
- Page No.
- Is it Online Verifiable? (Yes/No²)
- Remark

☐ **All attachments manually page-numbered**

☐ **Each page initialed by the focal point**

☐ Page number written beside focal point's initials

☐ Every page of every document included in the index

3. Proof of Status as Importer or Manufacturer (Annex 2)

Submittable Documents:

A. For Importer³

☐ Bill of Entry

☐ Commercial Invoice ☐ Packing List

☐ Others _____

² If online verification is not available, the evaluation process may take longer.

³ Submission of a Bill of Entry verified and approved by Bangladesh Customs is mandatory, and the applicant must be the importer named in the Bill of Entry. The product model name must be clearly identifiable, either directly from the Bill of Entry or from the Bill of Entry together with one supporting document—Commercial Invoice, Packing List, or any other relevant document—each duly verified and approved by Bangladesh Customs. Where the legal import of the applied product model by the applicant is fully traceable from the Bill of Entry alone, no additional documents are required.

B. For Manufacturer⁴

- ☐ Brand trademark registration from **DPDT**
- ☐ Product model trademark from DPDT or License from **BSTI**

Mandatory compliance:

- ☐ Applicant organization name and exact model name clearly mentioned in submitted documents

4. Full Compliance Test Report (Annex 3)

- ☐ Exact **brand name and model name** clearly mentioned
- ☐ Full **type test report** as per mandatory IEC standardsⁱ
- ☐ All required test parameters for Solar Moduleⁱⁱ/Invertersⁱⁱⁱ included
- ☐ Product **passes all test criteria**
- ☐ The following clearly highlighted in the report:
 - Laboratory name
 - Applied IEC Standard(s)
 - Test report number
 - Issue date
- ☐ Report issued **within valid accreditation period**

Verification type: ☐ Email⁵ ☐ Online

5. Accreditation of Test Laboratory (Annex 4)

- ☐ Accreditation issued by **ILAC MRA signatory accreditation body**
- ☐ Is laboratory **listed as verified on SREDA website**
(<https://solar.sreda.gov.bd/intllab/>) **with validity for testing period?**

➤ **If Yes:**

- ☐ Print of webpage with Lab name highlighted attached as Annex

➤ **If No:**

- ☐ **ISO/IEC 17025 Accreditation Certificate**
- ☐ **Scope of Accreditation** covering required IEC standards
- ☐ Accreditation validity covers **test report issue date (Annex 3)**
- ☐ Page no. of required Standardsⁱ/Test Parameters^{ii,iii} mentioned in the scope_____

6. Compliance Certificate (Annex 5)

- ☐ Exact **brand name and model name** mentioned
- ☐ Certificate valid at the time of application
- ☐ Issued based on **type test report (Annex 2): Consistency between the Type Test Report and the Full Compliance Certificate:**
 - ☐ Test Report Number
 - ☐ Model Number
 - ☐ Applicable IEC Standards
 - ☐ Product Rating / Capacity
 - ☐ Manufacturer Name
- ☐ Issue Date / Validity
- ☐ Mentions all required **IEC standards**
- ☐ Issued by a **certification body accredited by IAF MLA signatory**
- ☐ Accreditation valid during **certificate issuing period**

⁴ Submission of valid Brand Trademark Registration from DPDT and Product Model Trademark Registration from DPDT or a valid License from BSTI shall be considered sufficient proof. Other documents, if any, are optional.

⁵ If online verification is not available, the evaluation process may take longer.

Verification type: ☐ Email⁶ ☐ Online

7. Accreditation of Certification Body (Annex 6)

☐ Certification body accredited by **IAF MLA signatory accreditation body**

☐ Is laboratory **listed as verified on SREDA website**

(<https://solar.sreda.gov.bd/intllab/>) **with validity for testing period?**

➤ **If Yes:**

☐ Print of webpage with Lab name highlighted attached as Annex

➤ **If No:**

☐ **ISO/IEC 17065 Accreditation Certificate**

☐ **Scope of Accreditation** covering required IEC standards or Product type

☐ Accreditation validity covers **compliance certificate issue date (Annex 5)**

☐ Page no. of required standard mentioned in the scope _____

8. Local Laboratory Compliance Test Report (Annex 7)

Sample Test conducted from **local laboratory:**

☐ **EEE, KUET**

☐ **BRTC Testing Lab, CUET**

☐ **PV Testing Lab, EEE, BUET**

☐ **Physical Testing Wing, BSTI**

☐ Test report provided by applicant matched the official report sent from the Local lab to SREDA⁷

☐ Name of file officially sent by Local Lab^{7 8} _____

☐ Report clearly mentions:

- Brand name
- Model name
- Capacity
- Importer/Manufacturer name

☐ Testing was done as per the testing parameters set by SREDA⁹

☐ Product passes all required test parameters

9. Proof of Model Availability on Manufacturer's Website (Annex 8)

☐ Manufacturer's official domain provided

☐ Clear guidance included on **how to locate the product and it's datasheet from home page of official domain**

☐ Product datasheet available on official website

☐ Print of Product Page attached in this annex

☐ Datasheet attached in this annex

☐ Product identity consistent and highlighted across:

- Website product page
- Datasheet
- Application documents

⁶ If online verification is not available, the evaluation process may take longer.

⁷ To be filled in by NSHD Executives.

⁸ File naming and format are YYYY-MM-DD_XXXX.pdf

⁹ The testing parameters for sample testing by SREDA-listed testing laboratories will be published soon.

Declaration of Applicant

I hereby declare that all information and documents submitted by me are true, complete, and correct to the best of my knowledge. I confirm that the soft copy and hard copy of my application are identical in content, order, and version. I understand that any discrepancy between the submitted copies will result in direct rejection of my application.

I further acknowledge that submission of any fake, forged, or fraudulent documents, if proven during verification, will lead to rejection of my application and blacklisting.

I accept full responsibility for the authenticity of all documents submitted.

- Signature of the nominated person: _____
- Name:
- Designation:
- Organization:

Evaluator Seal and Signature

ⁱ Applicable Standards:

Solar PV Modules:

IEC Standards	Equivalent BDS
